- Html-5
- css3
- javascript
- REACT.JS
- bootstrep

Language

- English
- Gujrati
- Hindi

Education

2024-2025 RUNIG

SAMARPAN ARTS COLLGE
B.A

i am study in red and white multimediya education frontend developer

Projects

1. Garage Billing system

The Garage Billing and Inventory Management System is a full-stack web application designed to simplify billing and inventory tracking for vehicle repair garages. This system helps garage owners manage customer details, vehicle records, parts inventory, and generate bills efficiently.

2. Protfoliyo templet website

Portfolio Website:
Developed a personal portfolio website to showcase my skills, projects, and experience as a Full Stack Developer.
The website highlights my expertise in React.js, Node.js, MongoDB, HTML, CSS, Bootstrap, and JavaScript, with a focus on clean design, responsive UI, and smooth navigation.
It includes dedicated sections for About Me, Projects, Skills, and Contact, providing visitors with a complete overview of my work and capabilities.
